

Panlab

Panlab Workshop
Café Discussion
Notes

Halid Hrasnica

- ▶ Advantages of “Panlab Federation” for potential test bed providers
 - Utilisation of own labs
 - Promotion of own labs
 - Increase of number of users/customers
- ▶ Main added value
 - Interconnection of various labs
 - Organised approach within Federation coordinated by an Panlab Office

- ▶ Customer oriented advantages
 - Accessibility and concentration of expert labs and personal
 - Possibility to organise large-scale tests with a high number of test end users (e.g. for applications)
 - Introduction of end user evaluation
 - Tests in geographically wider areas
 - Shorter time-to-market
 - Marketing oriented tests and evaluation
 - Interoperability tests

- ▶ General advantages of having Federation and Office
 - Increased collaboration among Panlab participants (providers and customers)
 - A basis for further, more efficient, and faster innovation
 - Certification/labelling opportunities
- ▶ Further recommendation for the Federation
 - Support for interdisciplinary research and testing
 - Application of Open source resources

▶ IPR and Trust

- Rules and procedures established within the Federation and controlled by the Office will improve situation
- Companies still have opportunity not to include any of their labs into Public offer
- Still possible to chose labs to be used for a test (Trust)
- Solutions such as restricted offer are also possible
